

WINTER PREP

PREP AGAINST THE NINE DEMONS OF WINTER

FROSTBITE

HYPOTHERMIA

RUPTURED WATER MAINS

FROZEN PIPES

ICY WALKWAYS

ICY ROADS

CARBON MONOXIDE

POWER FAILURE

FIRE

Extreme winter weather can strike any part of the country.

Icy streets and highways, deep drifting snow, high winds, low visibility, and piercing, bitter cold can be dangerous — even life-threatening.

Below are some simple prep solutions

to help you beat the NINE DEMONS OF WINTER

when the weather turns frightful.

LET THERE BE LIGHT WHEN POWER FAILS

Have power failure lighting, candles, and LED flashlights for when the lights go out.

PROTECT YOUR WATER SUPPLY

Wrap exterior pipes and store water for when mains break.

AVOID FROSTBITE AND HYPOTHERMIA

Wear a coat, hat, gloves, & scarf over loose-fitting layers.

KEEP YOUR HOME FIRES BURNING...

During power failures, use fireplaces or certified kerosene and propane heaters.

...WITHOUT BURNING DOWN YOUR HOME

Never leave fireplaces or space heaters unattended, especially while sleeping.

CARBON MONOXIDE, THE SILENT KILLER

Ventilate when using fireplaces or fueled space heaters, and install CO sensors.

DON'T SLIP, SLIDE, FALL OR CRASH

Store ice melt and good shoes for you, kitty litter and tire chains for the car.

COMPREHENSIVE WINTER PREP CHECKLIST

FOR YOUR HOME

FOOD & WATER

- 3 days of Easy Prep Foods
- 3 gallons Water per Person

WARMTH

- Blankets
- Hats/Gloves/Scarves/Socks/Boots
- Heavy Coat
- Fireplace/Certified Kerosene or Propane Heater
